

ELITE-SERIES INSTALLATION INSTRUCTIONS

Installation

- 1) Rough In Backbox must be installed flush to surface area.
- 2) Run wire through wiring hole located in the middle of the back box. Secure firmly. **See Fig-1**

Note: We recommend that you use silicone sealer to protect the wiring around the hole.

- 3) **See Fig-2** for wiring instructions.
- 4) Mount the unit back into the back box. **See Fig-3**
- 5) Secure front face plate with the two(2) screws included.
